

Air 1 serves my community with great programing not available on ANY area radio station. They offer nat'l news, concert and event information along with brief spots with tips on making life more enjoyable and worthwhile. The genre of music provided is NOT available on any local station: very comtempary & driving Christian Music. This is all we listen to. Our ages are 46,20,16,12. We also gain from the short spots of information from marriage&family coun-selors,listener comments from all over the US and interviews from featured artists. We NEED Air 1 in our community! Thank You.
